SUBJECT: **NOTICE OF INTENT TO AUGMENT PUBLIC-PRIVATE  
PARTNERSHIP PROGRAM HEALTH CARE SERVICES AGREEMENT  
NO. H-702414 WITH KOREAN HEALTH EDUCATION INFORMATION  
AND RESEARCH**

Bruce A. Chernof, MD  
Director and Chief Medical Officer

Chief Deputy Director

William Loos, MD  
Acting Senior Medical Officer

This is to inform you that the Department of Health Services, Office of Ambulatory Care (OAC) is implementing the fifty percent provision of the subject agreement for Public-Private Partnership (PPP) Program services. The provision allows the Director of Health Services or his designee authorization to augment the maximum obligation up to fifty percent of the agreement budget.

On August 29, 2006, the Board of Supervisor's approved a new Strategic Partner PPP Program agreement with Korean Health Education Information and Research (KHEIR) which superseded their Traditional Partner PPP Program Agreement No. H-701047. This conversion was effective September 1, 2006.

Strategic Partners are distinguished from Traditional Partners by the higher level of services available, their capacity for treating acutely ill patients, and the amount of federal, state, and philanthropic funding to support the agency as a whole. In addition, an agency must be designated as a Federal Qualified Health Center (FQHC) or as a FQHC Look-Alike. KHEIR received the FQHC Look-Alike designation.

We will authorize an augmentation of \$14,307 to KHEIR's Strategic Partner PPP Program agreement, increasing the maximum obligation from \$82,350 to \$96,657. The augmentation will be support by unexpended funds that were identified from KHEIR's former Traditional Partner PPP Program Agreement.

*To improve health  
through leadership,  
service and education*

If you have any questions or require additional information, please let me know within 2 weeks of the date of this letter. Unless I hear otherwise from you, OAC will move forward with the augmentation.
